We make every attempt to ensure the accuracy of our information. Please understand that that it the extreme exception that we have plans on the job. On the occasions that we do they generally do not contain all of the redlines. We cannot determine if the errors are in framing, windows sizing, or if changes are made to the building after our departure which could invalidate part or all of the information in this report. It is the sole responsibility of the window supplier and the contractor to resolve these issues. This information is not intended to replace, modify, or change any plans, framing, or windows supplied.

The sizes called out and any measurements here are for reporting purposes only. Any measurements contained in this report are NOT intended for ordering, reordering, or for framing changes to building. R and R Window Installs IS NOT RESPONSIBLE if these measurements are used in this manner.

This report is not intended to replace the window supplier contacting the contractor and resolving issues that are not in our control. If you wish to change the reporting method we provide to reports that simply state the status of the job and does not contain any detailed information, or to opt for no reports simply contact us and we will be glad to change our reporting practices to better suit your needs.
